

Use of Minitab® Software

Course Description

Minitab® software is synonymous with data analysis, quality and continual improvement. For the benefit of those participants with an interest in Minitab®, relevant use of this package is demonstrated during the selected course. Course participants are welcome to bring a laptop computer preloaded with Minitab® software and to follow through the examples presented during the course, many of which are 'real world' data sets. Participants who currently do not have access to Minitab® may wish to download a free 30 day trial version from www.minitab.co.uk and use this during the course. **Please note that Icanthus Limited does not supply software.**

Benefits

Minitab® Software - participants will gain

- An understanding of the use of Minitab® software in support of the training received during their selected course.
- An appreciation of the significant benefits of using Minitab® software.
