

## Six Sigma: Yellow Belt Training

### Course Description

This is an introductory course which explains the fundamental aspects of six sigma and the define-measure-analyse-improve-control (DMAIC) methodology, and how it may be applied to a variety of business processes. A key objective of Yellow Belt training is to enable and motivate all personnel in the organisation to become active supporters and contributors within the six sigma strategy. (Our course tutors are certified by the American Society for Quality (ASQ) as a Black Belt.)

### Duration/Delivery Mode

Typically 2 days (1 day executive / overview sessions can be delivered to suit your needs).

### Target Audience

Multi-disciplinary: Personnel from all functions, who will support or contribute to a six sigma project. Executive level / overview sessions can be developed to meet the needs of specific personnel.

### Benefits

#### Six Sigma: Yellow Belt Training

- Helps to embed an understanding of the six sigma strategy.
- Enables personnel to contribute more effectively to six sigma projects.
